Walk on Art

Art carpets

Livable yet precious design-pieces created to transcend time as a work of art.

Bold designs come together in a wonderland of patterns fused with a vibrant color palette that merge touch and feel simultaneously.

Our rugs are handcrafted by skilled artisans in Nepal employing the finest wool from highland Tibet combined with cashmere and silk.

Julia Tonconogy Pfeiffer

Creative Director / Founder

JT. Pfeiffer is the outcome of a lifetime experience engaged in the Design World, involving creative direction, interior design and visual communication.

Her passion for design started to grow naturally from a very young age, coming from a family that has been dedicated to architecture for almost a Century, design was part of her everyday life. Born and raised in Buenos Aires, she lived and worked in New York and Miami for many years, which were crucial in her professional growth.

Julia's work includes collaborations and commissions with renowned brands and large-scale projects such as hotels, residential and commercial buildings, interior design for private residences, public areas, along with product, furniture, and graphic design, as well as brand identity for numerous clients.

As a passionate soul, she enjoys challenging perceptions of people and places transcending through design, in a world of colors, textures, and shapes that feel alive.

Ethical crafts

Goodweave Foundation

We are fully opposed to child labor of any nature and are committed to creating ethical rugs and working towards a better future for the industry and carpet weaving families across the globe.

JT. Pfeiffer is a full member of Goodweave. Each one of our rugs comes with a certified label in the back, being the best assurance that no child was exploited to make a rug and that other sustainable production practices were used.

Goodweave works to end child labor in the carpet industry and offer educational opportunities to children in weaving communities in India, Nepal and Afghanistan. It is the only organization working in carpet communities that rescues children from labor and provides them long-term support, and that offers participating companies third-party assurance of transparency, confidentiality and internationally accepted verification systems.

Customized & contract

The custom made service is aimed at architects, interior designers, and design firms that operate within both the sphere of private homes and that of contracted work.

The carpets are custom created with exact specifications for yarn type, shape, size, and color. The materials used are Tibetan wool, silk, cashmere and bamboo silk, which can be combined in multiple ways, as well as the type of finishes such as cut-pile, loop or hand carved among others.

We manage a palette of 1,200 colors with beautiful shades and hues to choose from. Carpets are handcrafted in Nepal using different techniques: Hand tufted, hand knotted and hand loomed. We can customize any size or shape you shall need.

Sizes and shapes

Sizes may be customized upon request.

Round

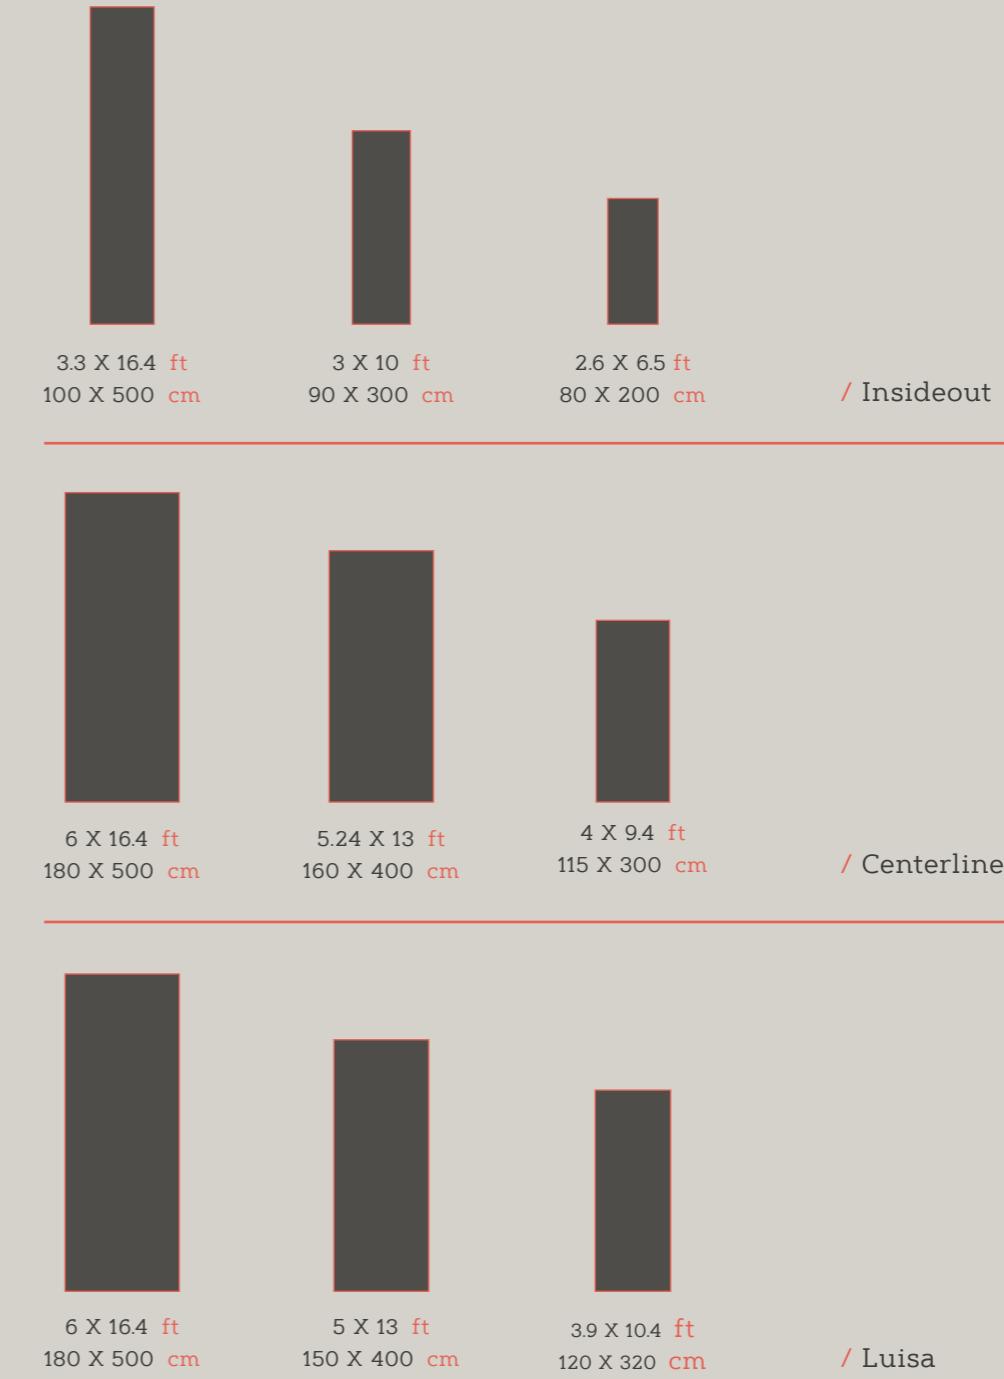

Rectangular

Square

Runners (Customized sizes)

Everyday care

To further extend the lifetime of the rugs, we recommend a regular maintenance in order to retain its shape and appearance. Light color rugs will require more care than darker color or patterned ones. Thorough vacuuming is the best, and an environmentally friendly method of cleaning. It is most efficient to vacuum the rug one direction at a time.

Cleaning

Professional cleaning of rugs is recommended. All rugs should be washed flat using water and then dried flat. It is very important to provide a good ventilation during the drying process.

Choosing a rug

Choose the characteristics of the rug, its color and design to suit the space in which it will be laid. If it is to be laid in a hall, for example, you may choose a type of rug that is more resistant to wear, and a color that is a little darker and dirt tolerant.

Our rugs are suitable for most settings, both public and private.
